## Employment History

### Senior Accountant (BI & Analytics), Sony Music Publishing

JUN 2025 — PRESENT

- Develop and own executive reporting for Sony Music Publishing's transformation portfolio, including an enterprise Power BI dashboard used by senior leadership to assess budget vs. actuals, forecasted spend, earned value KPIs, and project delivery performance
- Identify trends and surface insights across transformation initiatives, highlighting risks, bottlenecks, and performance signals to support high-level decision-making and resource planning
- Enhance reporting automation through Power BI, SQL, and Python, reducing manual effort and improving data accuracy for recurring leadership updates
- Partner with Finance, Global Business Transformation, and PMO teams to define reporting requirements and translate complex business questions into actionable dashboards and analytics

### Sr. Coordinator -> Analyst | Copyright & Indie Business, Sony Music Publishing

FEB 2024 — JUN 2025

- Developed Power BI dashboards that surface catalog and writer performance trends, integrating streaming data and internal datasets to support Finance, A&R, and Admin
- Built workflow automation using Power Automate, Python, and MS Lists to streamline copyright registration and metadata pipelines, reducing manual effort and increasing productivity
- Created SQL queries in AWS Redshift to support ad-hoc analysis of catalog performance, writer activity, and royalty collection questions from Finance
- Designed task trackers and prioritization tools that utilize streaming data to improve operational accuracy
- Supported analytics adoption by mentoring team members and serving as a BI/automation resource for multiple SMP offices

### Coordinator, Sync Licensing, Sony Music Publishing

MAY 2022 — FEB 2024

- Developed a sync-licensing dashboard with near real-time KPIs, giving management greater visibility into team performance and deal flow
- Built Excel/VBA automation and supported UAT for new workflow tools, streamlining licensing and invoicing processes
- Managed high-volume sync requests in coordination with Creative Marketing and clearance partners, supporting cross-functional decision-making

## Education

### Bachelor of Arts, Economics, University of Illinois Urbana-Champaign, Champaign

AUG 2018 — MAY 2022

## Certifications

### Data For Business Pro, Data Literacy Academy

JAN 2024
