

SEAN JUNG

Sony Music Publishing

WORK EXPERIENCE

JUN 2025 –
PRESENT

SONY MUSIC PUBLISHING

Sr. Accountant

- Develop and manage executive reporting for Sony Music Publishing's transformation portfolio, supporting senior leadership with budget vs. actuals, cost variance, and project delivery performance tracking
- Enhance reporting automation through Power BI, Python, and SQL, reducing manual effort and improving data accuracy for recurring executive updates
- Partner with Finance, Global Business Transformation, and IT stakeholders to define reporting requirements and translate business needs into actionable analytics

FEB 2024 –
AUG 2025

SONY MUSIC PUBLISHING

Sr. Coordinator, Copyright

- Developed dashboards integrating streaming and internal datasets to monitor indie catalog and songwriter performance trends, enabling data-driven decisions across Finance, A&R, and Administration
- Automated high-volume copyright registration and metadata workflows using Power Automate and Python, reducing manual processing time and improving operational accuracy
- Built SQL queries in AWS Redshift to support ad hoc analysis of catalog performance, songwriter activity, and royalty reporting
- Integrated Luminate API data into operational reporting to surface streaming performance metrics and improve prioritization of high-value songs
- Served as a business intelligence and automation resource for global affiliates, supporting adoption of analytics-driven workflows

MAY 2022 –
FEB 2024

SONY MUSIC PUBLISHING

Coordinator, Sync Licensing

- Developed sync licensing dashboards with near real-time KPIs to improve performance visibility and deal-flow monitoring
- Built Excel/VBA automation and partnered on UAT for new workflow tools, improving efficiency across sync licensing and invoicing operations
